SPINAL PELVIC STABILIZERS

What Is a Spinal Pelvic Stabilizer?

A custom-made Spinal Pelvic Stabilizer is placed in your shoe to help improve your body's balance, posture, and alignment. Stabilizers are the only orthotics designed to support all three arches of the foot. By providing proper support for your feet, Stabilizers help create a balanced foundation for your body. Correcting problems in your feet has amazing benefits that may surprise you!

Our Stabilizers can help increase your strength, enhance your athletic performance, and keep you feeling energized – even at the end of the day. Stabilizers are available in many styles and features, depending on your needs and the shoes you choose to wear.

They're Unique – Just Like You.

With a constant focus on how to better serve healthcare providers and patients, Foot Levelers has more proven and published research on the effectiveness of our Stabilizers than any other company in the profession. Custom-made: From a weight-bearing foam cast or digital scan of your feet, Foot Levelers' technicians take sixteen exact measurements to create your pair of custom-made Stabilizers. Your lifestyle, age, weight, activity level, and condition are also considered in their creation.

**Imbalanced Without
Spinal Pelvic Stabilizers**

**Balanced With
Spinal Pelvic Stabilizers**

Why Do I Need Stabilizers?

Most people with foot imbalances experience little or no pain in their feet. Instead, the pain is transferred to other areas of your body. Your feet are the foundation of your entire body, and having proper posture is the best way to support your body. If you have weakness or unstable positioning in either foot, it can contribute to knee pain, back pain or neck pain.

By balancing your feet, Stabilizers help improve your posture, enhance your body's performance and efficiency, reduce pain, and contribute to your total body wellness.

What Are the Different Top Options?

There are four basic tops used for Stabilizers.

LUXURY

A soft Lambson Leather™ top that is durable and moisture resistant with a 2-year warranty on the top. This is ideal for the average person and activity level.

SMART

Moisture control with Dryz™ and temperature control with IntelliTemp™. Ideal for those with perspiring feet and in extreme temperatures.

COMFORT

A soft TechCel™ top for comfort that is ideal for those on their feet more than 50 percent of the day.

TOUGH

A durable moisture-resistant leather top for extreme activities. Also great for athletes that create a lot of friction on the surface of the Stabilizer.

What Is the Benefit of Multiple Pairs or Combos?

Your body needs the correct balance, posture and alignment ALL of the time, not just half the time. Most people wear different shoe styles and one type of Stabilizer will not fit in all shoes (in most cases). Multiple pairs and Combos allow you to remain supported, no matter what shoe you wear.

Introducing Our Newest Stabilizer

Our newest Spinal Pelvic Stabilizer for Athletic Shoes

drirelease®

Celliant®

Celliant is clinically proven to increase blood flow and oxygen levels in the tissue, thus helping muscles and joints combat stiffness, soreness and edema caused by aging, injury or arthritis.

Silver

Silver inhibits the growth of bacteria and fungi and thus is added to reduce odor and the risk of bacterial and fungal infection.

dri-release®

Dri-release efficiently grabs liquid away from the skin and pushes it to the outside of the fabric where it can evaporate quickly. That's why clothing made with dri-release always feels soft and stays dry.

ACTIVE TOP

INMOTION™

Designed for Active Lifestyles

- Celliant® to help stimulate blood flow and tissue oxygen levels
- dri-release® to help remove moisture 4x faster
- Silver to help control odor and bacteria
- Includes DRSX™ and the Gait Cycle System® for extra shock absorption
- Top cover provides better grip during athletic activity

Full Length

ITEM#1365X

Celliant® Increases
Tissue Oxygen up to
10.2%
in active patients.[†]

In clinical testing, Celliant® has been proven to increase tissue oxygen levels in the body—which is widely recognized to aid in comfort, healing and recovery.

Clinically Proven...

Celliant® is clinically proven to help reduce minor aches and pain, increase tissue oxygen levels and help balance body temperatures.

Stabilizers with Celliant® can help:

- Reduce swelling and fight fatigue
- Increase strength and build endurance
- Aid in healing and muscle recovery
- Improve overall circulation

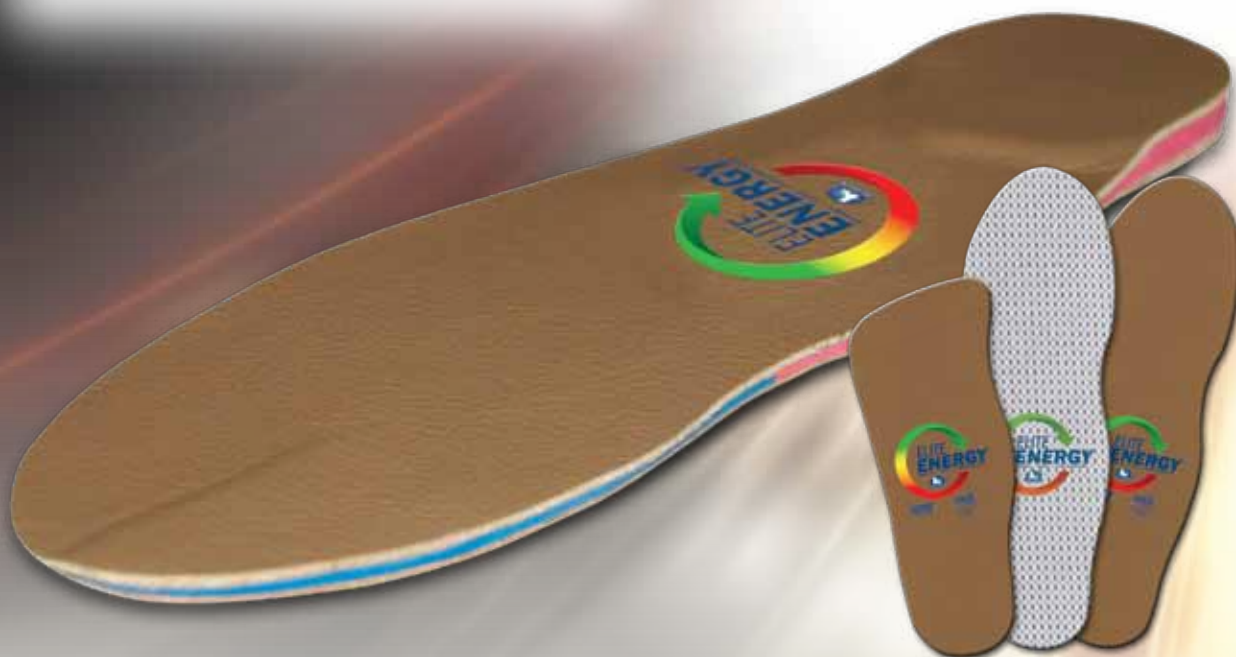

[†]Go to www.celliant.com for more information and clinical studies. Celliant® is a registered trademark of Hologenix, LLC.

Introducing the New Family of Elite Energy™

The Elite Energy Spinal Pelvic Stabilizer is the next step in enhancing your energy, edge, and performance. Strategically placed magnets* in specific zones may help to increase energy and lead to better vitality.** This can allow you to enjoy life to its fullest.

Do More | Live More | Be More

*Do not use products with magnets if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.

**May increase energy, weight loss and romantic passion. Individual results may vary.

5TH AVENUE™ FOR WOMEN

Just for her: The 5th Avenue™ line of Stabilizers is specifically designed for women and the shoe styles they wear.

5TH AVENUE™:

The price women pay to look great is costly, especially when it comes to their feet. Ask any woman who wears heels and she'll tell you - as the day gets longer, the pain gets worse in the ball of her foot, where all the pressure from the heel height is concentrated. The 5th Avenue line of Stabilizers was designed to support her feet and alleviate that nagging burn. Women shouldn't have to compromise on style.

5th Avenue is available in these 4 options:

1" Heel

5TH AVENUE™ LUXURY

7/8 Length
ITEM#1381

- Designed for women's dress flats **up to a 1" heel**
- Metatarsal support to ease pain
- Durable, moisture-resistant Lambson Leather™ top
- Special 7/8 length for optimal comfort

1" - 2" Heel

5TH AVENUE™ LADY LUXURY

3/4 Length
ITEM#1380

- Designed for women's heels **between 1" and 2"**
- Metatarsal support to ease pain
- Durable, moisture-resistant Lambson Leather™ top

5TH AVENUE™

MYFIT CUSTOM PILLOW

MyFit™ Pillow

Custom-made support for all of your individual postural needs

Removable and machine-washable, premium-fiber shell

Antimicrobial, antibacterial, hypoallergenic

Natural, soy-based support core

Fits standard-size pillowcase

2-year limited warranty

MyFit Custom Pillow

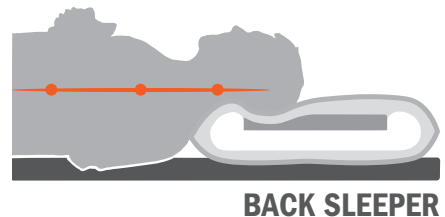

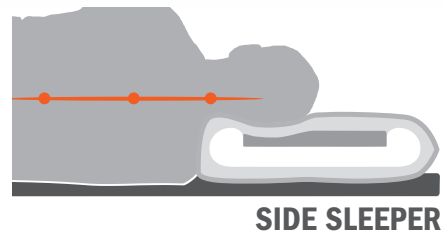

ITEM#270

Finally, you can rest assured.

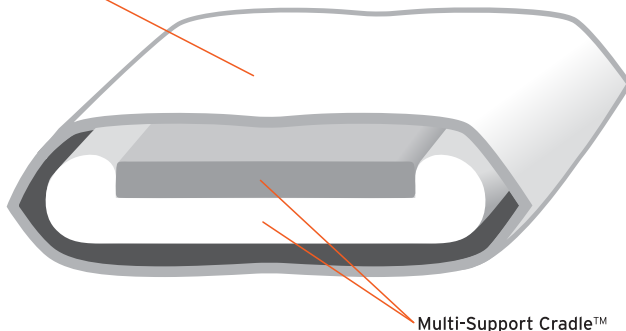

With MyFit™ - it's all about you.

The MyFit™ custom pillow, featuring SureRest Technology™, supports the natural curvature of your upper spine, providing the proper alignment of your head, neck and shoulders.

Four easy measurements create a pillow that's the perfect fit for you. Give yourself the life-improving benefits of a more restful night's sleep.

Premium Fiber Shell

SureRest Technology™

When you change positions during the night, alternating between your back and side, the ergonomic design of the Multi-Support Cradle™ ensures a level, sleeping surface for your proper alignment.

The SureRest Technology™ combines the Multi-Support Cradle™ with a premium-fiber shell to provide support and comfort so that your muscles are fully relaxed -- giving you a healthier night's sleep.

Spinal Pelvic Stabilizers *vs.* Over-The-Counter Orthotics

THE DIFFERENCE

IT'S NOT JUST ABOUT THE FEET

If you are considering over-the-counter orthotic inserts instead of custom-made orthotics, we are here to tell you the differences.

Unlike generic orthotics, Foot Levelers' custom-made Spinal Pelvic Stabilizers are scientifically designed for the individual's unique postural problems – not just problems with the feet. We believe that correcting imbalances in your feet, in addition to regular chiropractic adjustments, can properly align your spine and pelvis.

Stabilizers offer more than just short-term symptom relief. They also promote whole-body wellness for a lifetime.

Spinal Pelvic Stabilizers

TAKE A LOOK

Over-the-Counter

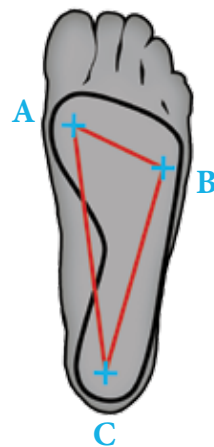

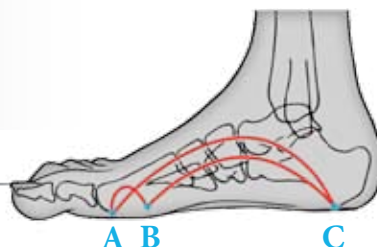

- **Only** supports 1 arch and often overcorrects, causing more **harm** than good
- **Does not** provide custom support throughout the gait cycle
- **Does not** aid in correcting posture; really just a cushion designed to treat the symptom rather than the underlying problem
- Durability is **questionable** so you may spend more money over time replacing them
- Offers **generic** solutions for a set number of foot conditions, which likely do not address *your* specific needs

AT THE FACTS:

Spinal Pelvic Stabilizers

3-arch support balances the feet, balances the body; also provides proper corrections for your specific condition

Patented Gait Cycle System®

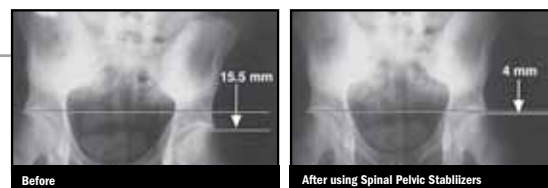

offers custom support through each phase of your gait

US Patent No. 6,510,626

CAN Patent No. 2,339,446

Promotes **optimum posture** and enhances chiropractic adjustments, resulting in longer-term symptom relief

X-rays courtesy of Terry R. Yochum, DC, DACBR

Guaranteed to last or your money back

Custom made using **16 precise measurements** based on digital images or impressions of your feet

Foot Levelers has been helping people like you for more than 58 years. Your health is our number-one priority. We support you every step of the way. Talk to your chiropractor today about Spinal Pelvic Stabilizers.
